PROFESSIONAL SUMMARY

Front-End Developer focused on building responsive, user-focused web applications with React.js, JavaScript, TypeScript, and Next.js. Currently gaining professional experience as a Front-End Developer Intern at Wigxel Corp, contributing to collaborative software development within an existing codebase. Experienced in building practical applications, implementing CRUD workflows, API integration, client-side routing, data persistence, and responsive interfaces. Strong communicator with a background in ICT and coding instruction.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, TypeScript, Next.js, HTML5, CSS3, Tailwind CSS

Development: Responsive Web Design, Component-Based Development, CRUD Operations, Forms, Client-Side Routing, API Integration

Tools & Collaboration: Git, GitHub, VS Code, REST APIs

Backend / Services: Convex, Local Storage

PROFESSIONAL EXPERIENCE

Front-End Developer Intern | Wigxel Corp

March 2026 – Present | Remote

- Contribute to a collaborative web application built with Next.js, React, and TypeScript within an existing codebase.
- Develop and integrate front-end features while following established project architecture and development practices.
- Implemented profile functionality, including a user cover-image feature with image upload, cropping, and editing capabilities.
- Work with Convex for backend data and storage integration.
- Use Git and GitHub for branching, pull requests, code changes, and collaborative development.
- Resolve merge conflicts and adapt feature work to an evolving shared codebase.

ICT / Coding Instructor | Karis Computer College

March 2023 – January 2025

- Taught practical computer, ICT, and programming concepts through structured lessons and hands-on exercises.
- Introduced learners to programming and web development concepts through practical projects and guided exercises.
- Explained technical concepts clearly to learners with different levels of experience.
- Guided students through practical tasks, troubleshoot challenges, and provided feedback on their progress.
- Encouraged problem-solving, logical thinking, and independent learning.

ICT Teacher/Coding Instructor | Secondary Schools

January 2020 – February 2023

- Taught ICT concepts and practical computer skills through structured, hands-on learning.
- Introduced students to programming and digital technologies through practical exercises and projects.
- Planned and delivered lessons for learners with different levels of technical experience.
- Guided students through practical activities and provided feedback to improve their technical understanding and digital skills.
- Developed communication, leadership, presentation, and mentoring skills through teaching and classroom management.

SELECTED PROJECTS

Expense Tracker | *React.js, JavaScript, CSS, Local Storage*

Built a practical expense management application with CRUD functionality, search/filtering, expense summaries, highest/lowest expense calculations, recent transactions, and persistent local data.

Student Management System | *React.js, JavaScript, CSS, Local Storage*

Developed a student record application with data creation, viewing, searching, deletion, modal-based details, image persistence, and local storage management.

Weather Application | *React.js, JavaScript, API Integration*

Built a responsive weather interface that consumes external API data and presents dynamic weather information through a user-friendly interface.

Task Tracker | *React.js, JavaScript*

Developed a task management application focused on component-based UI, state management, task operations, and a practical user workflow.

EDUCATION

University of Benin

BSC, Computer Science – Oct 2015 – Dec 2019

CERTIFICATIONS

Web Development Certificate – NIIT

JavaScript for Beginners - Udemy

ADDITIONAL INFORMATION

Target Role: Front-End Developer / Junior Front-End Developer

Availability: Open to relevant Front-End Developer opportunities
